Relevant Experience

Resonance and Wonder Ecommerce Marketplace | Solo Concept Project
Full-stack Developer | 7 days in September
- First iteration of an ecommerce marketplace for consumers to purchase products and certified B-corporation businesses to sell products in one place.
- Built using Next.js for its built-in routing, connected to a MongoDB Realm database, and uses Redux for global management of items in the cart.

ACT Travel Agency | Group Project
Full-stack Developer | 5 days in August 2021
- Travel agency application built for the purpose of connecting consumers to available travel packages and travel agents.
- Adapted from and implemented a predetermined UX/UI design using React.js and Scss on the frontend, Express and Node on the backend, and Git for pulling and pushing project branches.
- Created the packages, featured packages, and trip details features on the front end, Scss styling for all package and trip related components and pages plus the home page, and the model schema for packages on the backend while collaborating with a small team.

Mint & Magic Shoppe | Solo Concept Project
Front-end Developer | 3 days in August 2021
- Created an interactive e-commerce website for presenting product information and tracking and displaying selected products in the cart.
- Designed with React.js and CSS/Scss while using Contentful CMS to make an API call.

Work Experience

Educator   **Oklahoma City, OK**
Epic Charter Schools   *2019 - 2021*
- Created new systems at the school for storing and sharing data with educators and students.
- Analyzed relevant data from multiple data-tracking applications to facilitate student learning growth.
- Collaborated with educators and administration to address knowledge gaps and ensure optimal end-of-year outcomes for students.

Assistant Language Teacher   **Ashikita, Kumamoto, Japan**
Interac West Company   *2017 - 2019*
- Demonstrated project management skills while conducting lessons that accommodated different levels and learning styles in elementary, junior high, and adult classrooms.
- Aided and collaborated with Japanese colleagues for English instruction and for school-wide activities
- Enhanced cross-cultural communication skills for working with people at any English language level
